

Vivere

A well balanced composition of natural fruit extract, minerals, vitamins and plant constituents for the well-being of man's health.

ACTIVE PLANT EXTRACTS FROM:

RECOMMENDED USE

1 glass (200ml) on an empty stomach in the morning and the afternoon or as directed by your health care provider. Additional servings may be taken throughout the day if desired. May be taken alone or mixed with other natural fruit juices

GRAVIOLA - Graviola has a long, rich history of use in herbal medicine as well as a lengthy recorded indigenous use. All parts of the graviola tree are used in natural medicine in the tropics, including the bark, leaves, roots, fruit, and fruit seeds. Most of the research on graviola focuses on a novel set of chemicals called **Annonaceous acetogenins**. Graviola produces these natural compounds in its leaf and stem, bark, and fruit seeds.

ECHINACEA - Echinacea is commonly called purple coneflowers that are endemic to eastern and central North America, where they found growing in moist to dry prairies and open wooded areas. Echinacea is popularly believed to be an immunostimulator.

MORINGA - Moringa oleifera or Malungai is currently being promoted as a means to combat poverty and malnutrition. The leaves contain all essential amino acids and are rich in protein, Vitamin A, Vitamin B, Vitamin C and minerals.

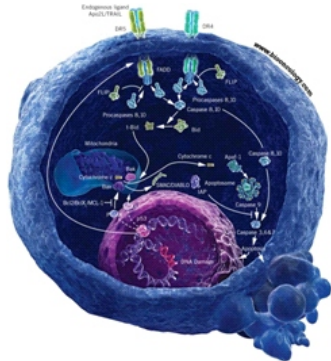

7 times the vitamin C of Oranges
4 times the Vitamin A of Carrots
4 times the Calcium of Milk
3 times the Potassium of Bananas
2 times the Protein of Yogurt

VIVERE

A well balanced composition of natural fruit extract, minerals, vitamins and plant constituents for the well-being of man's health.

KEY BENEFITS

- Supports APOPTOSIS action in our body*
- Supports a healthy immune system.*
- Supports the slowing of tumor growth.*
- Supports the reduction of blood pressure.*
- Supports the lowering of heart rate.*
- Dilates blood vessels*
- Supports the reduction of spasms*
- Relieves depression*
- Supports the reduction of fever*
- Stimulates digestion*
- Supports early prevention of colds.*

Extraction Technology

FRESH PLANT EXTRACTION

Stabilization of fresh plants using a special process, just-in-time delivery of fresh plant raw materials

Vivere Juice+ formula

To ensure that the active natural healing ingredients are contained in each pack, we rely on state-of-the-art procedures in processing and extraction of leaves, blossoms, barks, seeds and fruits to powder form. The fresh juice extract is dried within seconds. The drying takes place after an intimate mixing of the sprayed liquid with the drying gas. The extract is pressurized and then sprayed into a stream of hot dry air. The result is a relatively high nutrient content preservation that makes VIVERE a superior natural juice formula.

Product Development

Raw materials are sourced from Plantextrakt GmbH & Co. KG.

DEVELOPMENT LABORATORY

Modern equipment for the development of plant extracts (API), galenic formulations and presentations of all kinds

RESEARCH

Literature, database and patent research, intensive collaboration with international institutes and universities

INNOVATIVE PRODUCT DEVELOPMENT

New plant-based active ingredients, also ethnobotanical and traditional medicine as a source of new products. "The nature network" for access to rare and new raw materials
